

# MERSINA LARGE VASE

## ARTERIORS

You may recognize this urn-shaped vase from ancient Greek art. It was once a common vessel for water wine and oil to be transported and served in royal palaces. Its form transcends time as evidenced by this modern version crafted in blown glass. Clear handles accent an opal white structure with a top layer of glass that's dappled with gold metallic highlights. Also comes in a small vase (7416).
