

REMBRANDT LAMP

ARTERIORS

Sleek and modern in form this piece has contrasting tones and subtle details that allow it to work well in so many spaces. The block base features two layers of lacquer in navy and taupe which are applied in the traditional multi-layering method for a completely smooth finish. The lighter and darker tones are separated by a thin line of inlay brass that has a seamless weld. Topped with an off-white silk rectangular shade with a white cotton lining.

All Arteriors lighting pieces are re-wired with black wiring
