

SEALE LAMP

ARTERIORS

Sleek and modern in form this piece has neutral tones and subtle details that allow it to work well in so many ways. The cylinder features two layers of bi-tonal lacquer which are applied in the traditional -multi-layering method for a completely smooth finish. The light and dark taupe tones are separated by a thin line of inlay brass that has a seamless weld. Topped with an off-white silk drum shade with an ivory cotton lining and cord detail to balance with the lamp design.

DIMENSIONS	457 DIA x 813 H mm
